

NJLA Information Technology Section
in collaboration with the
NJLA College and University Section present

FutureTech for Libraries Symposium

Friday, June 13, 2008

9:30AM – 3:30PM

The College of New Jersey Library Auditorium

Ewing, NJ

Directions online: <http://www.tcnj.edu/~pa/about/directions.html>

Keynote Speaker:

Steven J. Bell, Associate University Librarian for Research and Instructional Services,
Temple University Libraries, Philadelphia, PA

Presenting:

"Why are we doing this? Designing Future Technology Adoption into the Business of
Libraries"

Followed by Pecha Kucha*s with proponents and skeptics discussing:

- 1 Open Source Tools for Libraries,
- 2 Video Production and Marketing,
- 3 Gaming in Libraries,
- 4 Virtual Reference,
- 5 E-books and Digital Libraries,
- 6 Federated Search Tools,
- 7 Library 2.0 Social Networking, and
- 8 Second Life in Libraries

**Pecha Kucha: Conversation Face-Off!*

Pecha Kucha is Japanese for the sound of conversation and represents a fast-paced series of presentations. Each of our panelists has 6 minutes and 40 seconds along with 20 images to express their opinion about each tech topic, and each is answered by the skeptic. See if they can do it and then join in the conversation.

To Register, use the registration form on second page.

NJLA ITS and NJLA CUS would like to thank and acknowledge additional support from:

FutureTech for Libraries Symposium, Friday, June 13, 2008

Registration Form
